

**LASER VAGINAL REJUVENATION® FOR THE ENHANCEMENT OF SEXUAL GRATIFICATION  
and DESIGNER LASER VAGINOPLASTY® FOR THE AESTHETIC  
ENHANCEMENT OF THE VULVAR STRUCTURES.**

**TESTIMONIALS**

“I would like to take this opportunity to Thank Dr. Brady and all her office and surgical staff for such a wonderful experience. I had the LVR procedure in January and the results are awesome. Dr. Brady and her staff made me feel very comfortable before the procedure and after the procedure. I now wish I would have also had the DLV at the same time and will be making an appointment soon. Since I’ve had the LVR procedure I feel more confident in the bedroom and more sexually satisfied. LVR has also stopped the incontinence when I would sneeze or cough. I followed all of Dr. Brady’s recommendations and the pain after the surgery was very manageable. I was back to my office job after 10 days. I really recommend the LVR procedure to all women.”

“Dr. Brady took excellent care of me. Her entire office and staff is very loving and welcoming. My surgery went great; recovery time was quick and no complications or pain. The loose feeling is gone and it is if my vaginal area is brand new again! It now has a tight feeling at times and sexual pleasure is heightened for both of us. The surgery made my vaginal muscles that were not working to once again work. It did what kegels and everything else could not do. It was the best thing I have ever done for myself, worth every penny!”

“I just wanted to let you know how pleased I have been with the results of my Laser Vaginal Rejuvenation surgery. You made me feel so comfortable and relaxed during the evaluation. You listened to my concerns and being a woman, you could relate to how I was feeling before the surgery. Since the surgery, I feel like a new woman. My sex life has been greatly enhanced. My husband has noticed the difference and is very pleased. I feel more confident about myself now. Thank you again for changing my life!! I would recommend this surgery to anyone who wants to enhance their inner beauty!!!”

“My healing time was more like 12 weeks, not six! Now I have frequent satisfying incredible sex with my husband. Since the 12 week mark, I have no discomfort and don’t need any lubrication gel. Elasticity, lubrication and tightness is excellent. I am extremely pleased, will recommend this surgery at your office and I think this the best money I ever spent.”
