TESTIMONIALS

I am so grateful to Dr. Brady and the staff at the Women's Wellness Institute for their professionalism and great care –but mostly, for helping me take the first steps to living and loving life again.”

I just wanted to let you know how pleased I have been with the results of my Laser Vaginal Rejuvenation surgery. You made me feel so comfortable and relaxed during the evaluation. You listened to my concerns and being a woman, you could relate to how I was feeling before the surgery. Since the surgery, I feel like a new woman. My sex life has been greatly enhanced. My husband has noticed the difference and is very pleased. I feel more confident about myself now. Thank you again for changing my life!! I would recommend this surgery to anyone who wants to enhance their inner beauty!!!

Last September I made the decision to have a Designer Vaginoplasty and Labioplasty by Dr. Wesley Anne Brady. Dr. Brady and her staff made me feel comfortable from the moment I walked in the door. I was a bit apprehensive about the procedure but more about the recovery. I was given a thorough explanation of the procedure, risks, benefits and detailed instructions for my aftercare. The surgery went well - I also had a breast lift and tummy tuck at the same. I had mild discomfort for about 2 days and that was it! I followed the post care instructions exactly as directed and I am sure that made the recovery a breeze. Am I glad I did the procedures? Absolutely! After having 2 babies and losing 40 pounds, everything was loose and sagging. Not anymore! I am confident in and out of my clothes. My sex life is so much more satisfying I wish I had done it years ago.

I recently had a cosmetic surgery in the surgery suite at the Women's Wellness Institute of Dallas. They were wonderful to work with and helped set everything up with my plastic surgeon. Dr. Brady's staff assisted in the procedure and took great care of me. I could not have asked for a better situation. I would recommend her to all of my friends.

I am very pleased with the outcome and would recommend you to anyone. My recovery had minimal pain in which I never had to use all the pain medication.
